## Karwendel Tour

### Scharnitz & Achensee Tyrol

4 days / 3 nights  
from € 385,00 p.p.

min. 20 participants

In order to really experience the Alpine Park Karwendel, it is necessary to take time and when possible to spend a few days there. The Karwendel offers landscape highlights, like the big "Ahornboden", the "Laliderer Wände" or the "Vomperloch", which without consideration can be compared with the most beautiful mountain regions of the world.

### Day 1: Arrival in Scharnitz

The target of the first day is the hut "Karwendelhaus". Optionally it is possible to reach the first peak "Birkkarspitze" (2.749 m). In the evening a typical Tyrolean dinner will be served, while enjoying the cosy atmosphere of the "Karwendelhaus", before going to bed.

### Day 2: "Laliderer Wände" & "Binsalm"

The hike will go through an area full with maple trees. After that you pass the "Laliderer Wände", a famous place for climbers. Your accommodation will be the hut "Binsalm".

20 to 50 participants

In our beautiful Alps you have the possibility to rent chalets, hill farms or huts. These are perfectly suited for smaller team events since the total experience, to spend a few days in a hut and to care for each other, strengthens the feeling of togetherness and makes it possible to intensify personal contacts.

### Day 1: Arrival at the hut

After arriving in the hut you will find your beds for the night. Cooking and decorating the table together with the others and a professional chef are the first things to do. After having enjoyed the dinner traditional hut activities will be experienced.

### Day 2: Team Trophy and Disco night

After breakfast a team trophy with team activities like "Low V", "Zig-Zag" and "Rescue the Depot" is going to take place to strengthen the team spirit.

## Zugspitze

### **Garmisch Partenkirchen**

3 days / 2 nights  
from € 220,00 p.p.

min. 20 participants

With it's 2.962 meters the Zugspitze is the highest mountain of Germany, located in the south of Bavaria and touches the Austrian border. This border in fact goes right through the mountain. There used to be a border checkpoint at the summit. But since Germany and Austria are now both part of the Schengen zone, the border crossing is no longer staffed.

### **Day 1: Arrival to Garmisch**

The hike starts with a very nice walk at a small path near Garmisch, leads through the gorge "Höllentalklamm" up to a hut called "Höllentalangerhütte". In the hut a traditional dinner will be served before you get to bed early, to be relaxed for the next day.

### **Day 2: Ascend of the Zugspitze and descend**

After breakfast the hike continues crossing the remnants of a small glacier. Here you traverse a wall with the help of an iron ladder and steps before reaching the summit. Then the descend towards Ehrwald starts. The descent of the summit has different routes:

one leads straight through the western flank, which is the shortest route overall, but rather hard. It includes a via ferrata, and there is a hut called "Wiener Neustädter Hütte". An easier route leads you via the hut "Knorrhütte" to the so called "Gatterl" and then down passing the hut "Ehrwalder Alm". After this spectacular descend the second night is spend in a 4\*\*\*\* wellness and spa hotel. Here it is all about relaxing and gaining back ones strength.

### **Day 3: Departure**

After breakfast you start the journey back home.

- ✓ 1 night accommodation with half board in a 4\*\*\*\* spa hotel
